<i>Year</i>	<i>Online Course</i>
2020	DataStructure Using C TOCS Completed
2020	C Tutorial Course SoloLearn Completed

## Experience :

### • **Web Developer**

Pixaflip Technologies Pvt. Ltd.

Mar 2021 – June 2021

- In Pixaflip I am working as an intern in this company and I am working on a real project and the project is based on a hospital management system and pathology lab . So basically I handle the billing system, manipulate the doctor commission according to the bill amount, and generate the paid bill as well as the unpaid bill of the patient. Link i have of other project which on live server
- Link: <https://pixarealestate.pxpanel.in/web/index.php>  
**Technologies Used** – yii,php,html ,css,javascript,
- Link: <http://blog.nfraz.co.in/admin/dashboard>  
**Technologies Used** – Laravel ,Vuejs,Vuex,Vuetify, and Rest Api and also used lots of features ,like permission module ,Jwt,pagination,

### • **REDGATES**

#### **Full Stack Developer**

Red Gates It Solution

July 2021 – Present

- Redgates IT Solution is a software company who is providing a web application service and app service Across India with the most effective service system in the world. I am working on a multi-school management system . So here a lot of modules are there like fee -transaction , different role-login , overall we are working on the admin portal end to end . In terms of **Technologies** , We are very flexible. We generally use PHP , LARAVEL ,TAILWIND CSS, HTML ,CSS,JAVASCRIPT.
